Interviewees stated that equity was internally structured in policy and that it was discussed as a principle that everyone should have a possibility to access and participate in PA services. Cancel Print. Youjustclippedyourfirstslide! In Denmark the analysis of PA policies and interviews identified the target groups to be the general population, students, children, young people, and older people. Remember me on this computer. In Romania the county regional policy Cluj Champions-The protocol for organizing sport activities for children in Cluj County did not mention equality and equity issues in the policy document.

Examples of good practice are provided as well as ideas for how to implement research activity has been informed by this and critical sociological studies in relation to football, cricket and global sporting events. Our interest in disadvantage is reflected in research from the perspective of critical social science.
