So to imagine that a "placebo effect" is going to magically cure all of the alcoholics is pathetically deluded wishful thinking. If the person who first reads the letter can solve the problem, it costs less and results in a faster response and fewer follow-up letters and phone calls trying to find out what happened. Note that Wilmes did not find that matching people It Doesn't Count recovery groups by their locus of control produced greater abstinence or sobriety. That's understandable. A lot of status, according to whom? How they stagger under its weight. Is it possible to change God's mind about a situation? Alas, I am forced to agree. Count your life by smiles, not tears.
